

The parish provided this information to officials from the Harrisburg Diocese and following a number of discussions with these officials, Bishop Rhoades gave Saint Margaret Mary Parish permission to look at other parcels of land in the area for a new church. The parish is currently working with a commercial realty company to identify potential sites for the new church.

In July the Design Committee agreed on a schematic design for the new church. On September 10<sup>th</sup> and 11<sup>th</sup> the schematic design will be displayed in the School Cafeteria after all the weekend Masses. Please stop in the cafeteria to review the design and write your comments on the cards which will be available.

Thank you for your prayerful support as we continue to move forward in faith.

In Christ Jesus,

A handwritten signature in cursive script, appearing to read "Fr Dan".

Rev. Daniel F.X. Powell  
Pastor
